MEMORANDUM FOR: All Division and Staff Chiefs, Economic Area
FROM : Chief, Economic Area
SUBJECT : Material for General Clark's Investigation

1. In preparation for the investigation of this Agency by General Clark, the DDI has requested that each office furnish him with statements of broad problems, together with possible solutions.

2. These problems should concern intelligence matters which relate to intelligence activities between the Economic Area and other agencies, or with the DDP area. Problems between various offices within the DDI complex should not be included. Possible broad problems on which a brief paragraph is needed are as follows:

a. Difficulty in obtaining cost data on military items from the Department of Defense.

b. Personnel difficulties concerned with the augmentation at NSA.

c. The "grey" area covering intelligence on military end items which results from some duplication between ORR and the Services.

3. Would you let me have by the close of business today brief, clear statements covering the above or other broad problems which need looking into, together with possible solutions.
